

Date: July 2026

Prepared by: Investera Business Solutions

Executive Summary

Investera has delivered Investment Management System (IMS) implementations across multiple investment firms, family offices, and holding companies within the GCC and MENA region.

1. Dimah Capital (Kuwait)

Industry: Investment Management / Shariah-compliant international real estate investment

Client Overview: GCC investment company with multi-asset / real estate investment operations, reporting needs, governance requirements, and structured portfolio oversight.

Scope: Multi-asset portfolio management, reporting, and system consolidation
Investera implemented a centralized investment management platform for Dimah Capital back in 2019, of diversified portfolios across public and private asset classes. The solution enabled consolidation of investment data, structured reporting, and improved visibility across portfolios and entities.

Investera supports Dimah Capital Investment Company, in its investment management operations. Dimah Capital is a Kuwait-based investment management company with a focus on Shariah-compliant international real estate investments.

Key Capabilities Delivered:

- Multi-entity portfolio structure
- Consolidated reporting across asset classes
- Data migration and structured onboarding
- Configurable workflows and access controls
- On-Premise Installation
- Invesotr Mobile Application

Outcome:

Enhanced portfolio visibility and reporting efficiency, enabling streamlined investment monitoring and decision-making inline with CMA regulations in Kuwait.
